Enabled**

## **Your Point of Care Ecosystem**

By connecting your DCA Vantage Analyzer to POC Informatics solutions, you can manage the complete POCT process across the healthcare continuum. We provide integrated, open-access solutions that:

- Reduce costs by consolidating POC data-management systems and IT infrastructure.
- Simplify operations by centralizing management of data, devices, and operators.
- Enable staff competency and compliance by supporting efficient certification and training.

## Increase Efficiency while Decreasing Costs

The DCA Vantage® Analyzer makes in-office testing easy with accurate, clinically trusted results shown to improve decision making, patient compliance, and outcomes.

Get precise HbA1c, albumin, creatinine, and A:C ratio results in minutes with good correlation to laboratory methods.

## The Global Burden of Diabetes

The global diabetic population is rising, and almost 50% of those affected don't know it.<sup>1</sup>

A simple fingerstick point-of-care test for diabetes management can help reach the undiagnosed population.

1. IDF Diabetes Atlas. 2019.

2. Crocker JB, et al. *Am J Clin Pathol*. 2014 Nov;142:640-46.

3. Petersen J R, et al. *Diabetes Care*. 2007 Mar;(30)3:713-715.

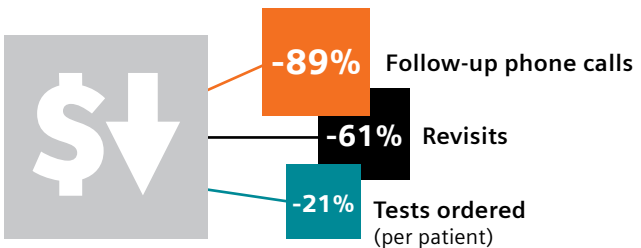

*"POCT can significantly improve clinical operations with cost reductions through improved practice efficiency. The economic benefits of POCT may be realized in both fee-for-service and global payment environments."*<sup>2</sup>

J. Benjamin Crocker, M.D

## Reducing Costs

### By improving practice efficiency

The DCA Vantage Analyzer can reduce the need for follow-up phone calls and letters and potentially reduce associated costs.<sup>2</sup>

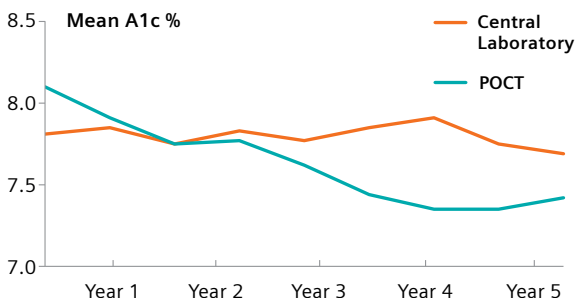

Massachusetts General Hospital  
Boston, MA

## Improving Clinical Outcomes

### By reducing HbA1c

Availability of POC A1c testing impacts HbA1c levels in both the short term (<1.5 years) and the longer term.<sup>3</sup>
